Abstract

The instructions below are described to guide authors who wish to submit a manuscript to the 5th Rajabhat University National & International Research and Academic (RUNIRAC V). The submitted manuscript must be clear, concise, and well agree with the conference template to obtain the consistent form with other papers; therefore it can be collected in the conference proceedings uniformly. Use this document as a template if you are using Microsoft Word. Otherwise, use this document as a guideline to setup your manuscript. Thank you for your contribution. We are looking forward to receiving your papers. The abstract is required of no more than 200 words.

Keywords: Three to five keywords should be provided here to assist with indexing of the article. The keywords are separated by comma (,) symbol, e.g., Keyword1, keyword2, keyword5.

1. Introduction

This instruction gives you guidelines for preparing full papers for the 5th Rajabhat University National & International Research and Academic (RUNIRAC V). Please use this document as a template and adhere strictly to the following guidelines and format to assure rapid production of high quality conference proceedings. After the notification of full paper acceptance, the “camera-ready” manuscript will be required. The typography, layout and style are exactly the same as those used in this instruction. Papers which do not comply with it (especially in layout geometry and typesetting) will not be included in the proceedings. No final correction will be made by the organizer.

2. Preparation of Full Papers

The basic elements of a paper are title, author name(s) and affiliation(s), abstract (with three to five keywords), main body of paper, acknowledgements

and references. The main body of the paper can be divided into sections and (optionally) subsections with sub-subsections. All fonts must be in Browallia New. Do not put page number in the manuscript.

2.1 Page size and format

The size of the manuscript must be A4 and it should be typed in two columns with single spacing and the following margins.

Important note: the full paper must not less than 4 pages and not exceed 6 pages.

Top margin	1 in
Bottom margin	0.8 in
Left margin	1 in
Right margin	0.8 in
Column width	3 in
Column separation	0.35 in

2.3 Title and author(s) information

All items in the title block should be centered across both columns. The title should be set in 18-

XXXXXXX

point boldface type. The first letter of each word should be capitalized (do not capitalize articles, coordinate conjunctions or prepositions unless the title begins with such a word).

The author’s name(s) should be set in 15-point font and the list of affiliations should be set in 14-point font. The affiliations should include department, university and address. For each author, a numbered superscript should be used to indicate institution affiliation. The corresponding author should be indicated by the asterisk (*) symbol and the presenting author should be identified by name underlining. The corresponding author’s telephone/fax numbers and e-mail address should be provided as the final item in the title block.

3. Abstract and Keywords

The abstract must be typed in 14-point font followed by a list of keywords. The titles of abstract and keywords are typed in 14-point Italic bold font.

4. Main Text Body

The full text of the paper (except the abstract) must be edited in the double column format as required and fully justified (flush left and flush right). All fonts are set in 14-point font. Please do not place any additional blank lines between paragraphs. Headings and subheadings appear throughout the text should not exceed 3 levels.

4.1 Section title

The submitted manuscript should contain sections such as Introduction, Experimental (or Materials and methods), Results, Discussion (or Results and Discussion), Conclusion(s) and/or equivalent to those. Use of general terminologies is encouraged. The main section should be boldface, initially capitalized and centered.

4.1.1 Second-order and third order headings

The second-order headings (sub-sections) and the third-order headings (sub sub-section) should be boldface, initially capitalized and flush left.

5. Figure, Table and Equation

5.1 Figure and Table

All figures and tables should be placed after their first mention in the text. Large figures and tables may span across both columns. Place figure captions below the figures and centered within a column. Place table titles above the tables and flush left. If figure has two parts, include labels “(a)” and “(b)” as part of the artwork. Please verify that the figures and tables mentioned in the text actually exist. When citing a figure(s) in the text, they should be referred as, for example, “Fig. 1” or “Figs. 1–3.” or Table. 1. Do not abbreviate “Table”. The figure and table captions are set in 14-point font size.

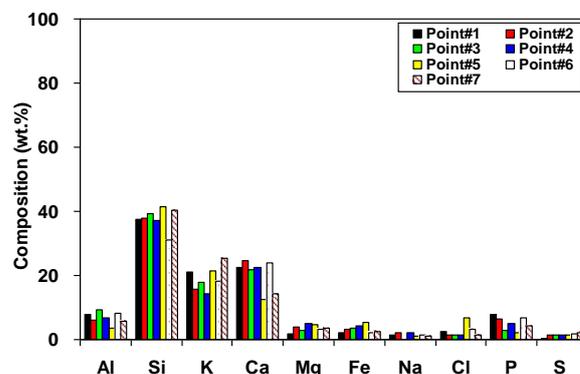

Fig. 1: Figure caption.

Table 1: Table caption

Data	Data	Data	Data
xxxxx	xxxxx	xxxxx	xxxxx
xxxxx	xxxxx	xxxxx	xxxxx
xxxxx	xxxxx	xxxxx	xxxxx
xxxxx	xxxxx	xxxxx	xxxxx
xxxxx	xxxxx	xxxxx	xxxxx

5.2 Equations

Equations should be typed, although you can embed Equation Editor or other objects if the equation cannot be typed in a line. Equations are centered and numbered consecutively. Equation numbers should be Arabic numerals enclosed in parentheses on the right-hand margin. They should

be cited in the text as, for example, “Eq. (1)” or “Eqs. (1)–(3)”. Be sure that the symbols in equations are defined before the equation appears or immediately followings.

$$y = mx + c \quad (1)$$

6. Acknowledgement

Acknowledgements may be made to individuals or institutes who have made an important contribution.

7. References

The relevant works must be cited and listed as references at the end of the paper, in order of citation. They should be chronologically referred in the text by Arabic numerals enclosed in square brackets, e.g. [1], [1,2], [1–3]. The reference list should be set in the same type face as the body of the text. Some example of the references to journal papers, proceedings, technical reports, books and web-based articles are illustrated as follows:
